

EDUGENIE — EMPATHY MAP

=====

USER PERSONA: Aditya, 19, First-year engineering student

SAYS

"I don't understand this concept and my professor explains it too fast."

"I need a quick answer but Google gives me complicated results."

"I wish there was a tool that just explained things in simple language."

THINKS

"Why is everything either too basic or too advanced?"

"Will AI actually help me learn or just give me answers?"

"I hope this tool is easy to use and free."

DOES

Searches YouTube for tutorials

Uses ChatGPT but finds it too generic

Takes screenshots of formulas without understanding them

Asks friends in WhatsApp groups for help

FEELS

Frustrated by the speed of classroom teaching

Anxious before exams about gaps in understanding

Hopeful that technology can help him catch up

Overwhelmed by the number of learning resources online

PAIN POINTS

- Tutoring costs too much
- Search results are unreliable
- No structured learning path
- No quick way to test his understanding

GAINS FROM EDUGENIE

- Instant answers to any question
- Simple explanations for hard concepts
- Automatic quiz generation to test himself
- Structured learning path from beginner to advanced
- Completely free and simple to use
