

EDUGENIE — PROJECT DEMO PLANNING

=====

VIDEO SPECIFICATIONS

- Length: 4–5 minutes
- Resolution: 1080p (1920x1080)
- Format: MP4
- Frame rate: 30fps
- Audio: Clear voiceover
- Screen content: Browser + VS Code terminal side by side

RECORDING TOOLS

- OBS Studio (free) or Windows Game Bar (Win + G)
- Microphone: Built-in or headset
- Video editor: DaVinci Resolve (free), CapCut, or Clipchamp

VIDEO OUTLINE

Section 1 (30 sec): Intro

- Title screen: "EduGenie — AI Learning Assistant"
- Brief project description

Section 2 (30 sec): Problem

- Show cost of tutoring

- Explain accessibility gap

Section 3 (30 sec): Solution Overview

- Walk through the 5 features
- Explain tech stack

Section 4 (2 min): Live Demo

- Demonstrate all 5 features live
- Show real AI responses

Section 5 (30 sec): Technical Highlights

- Show folder structure in VS Code
- Mention modular architecture

Section 6 (30 sec): Closing

- Future scope
- GitHub repository link

UPLOAD INSTRUCTIONS

1. Upload the MP4 to Google Drive
2. Right-click → Share → "Anyone with the link"
3. Copy the link
4. Paste into Google Form's "Project Demo Link" field

TIPS FOR A GOOD DEMO

- Practice the flow 2–3 times before recording
- Speak at a natural, clear pace
- Show real AI responses, not mock data
- Keep file size under 100 MB
